Wan Wan(JuanJuan) in Old House around Mount Huangshan

6th April

Undoubtedly, when LiLi (布布) and DiDi (丁丁) were chatting about Mountain Huanshan, old house, yellow flower plain and so on, during their drawing, they suddenly had an idea about having a straightforward trip without plan . Then, they immediately prepared the luggage.

Humans... they are really very willful, are not they? Wan Wan (Juan Juan 卷卷) thought.

But, wherever going, I am very delighted, as long as with LiLi and DiDi to travel. When I hurried up to fetch several toys with mouth into trolley case, and planed to take my lovely ball too, LiLi held me to sofa, and said:“Wan Wan, it is a big help, please be a quiet handsome boy.”

This... it should mean to commend me very graceful, did it?

After countless curve roads, the scene out of car window was suddenly wide, then big square and big square like cheese cake appeared, which looks very delicious.

LiLi said that big square like cheese cake was yellow flower field, and where we would go was at the deep centre...

Hi, lovely, slowly!
What do you do, in case go to field?

Hi, follow me!

Second Hostess
Sister Zhang

Within days,
Hostess is not...

You may regard
here as your
home.

Bark

About five, a Aunt will prepare

Dinner for you.

Bark

The old house is very perfect!

Hi, Wan Wan, don't wander wild.

Oh, right, our village is like a maze, so you had better to remember the course when you wander out.

Wow, also have a super pretty backyard.

Sister Zhang left leaving the room key. I liked the new home very much. The family of little swallows lived at courtyard's beam. As a little polite dog, I wanted to hello them. I said: "bark, bark, bark." Little swallows flied out of courtyard for a circle in gurgle, then, flied back.

I said again: "bark, bark, bark." They flied out of courtyard for a circle in gurgle, then, flied back.

It is very passionate.

呀 呀

Let us go to the village centre, and remember the course to back.

Take is easy. It is on me.

Have you feel someone follow us always?

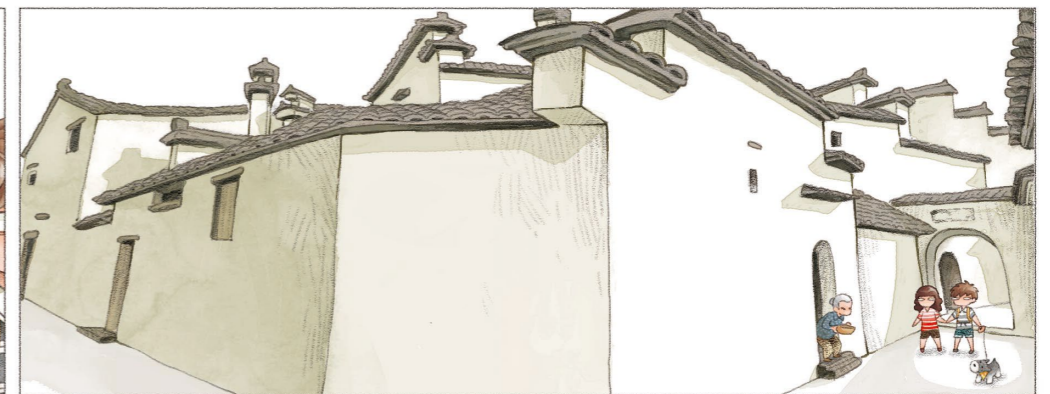

Ah... real?

Bark

Bark

So, the little back shadow is this guy, a coward. As I am just near him, he returns to corner and bark at me.

Excuse me, Aunt only say dialect. Please go forward along this alley, pass... turn right ...

Then, the destination.

Wow, come unexpectedly across so handsome teenager in village!

Under the teenager's guide, Lili, DiDi and WanWan finally found the way back. As well as that coward tracking us disappeared in some time we did not know.

Bark

Ah

Bark

Aunt, a white dog traced us for long, oh...

Oh, it said that Maotou is a little pity!

No longer, the boy departed too, but without Maotou...

So, the little guy waited at the village's entrance every day...

Too pitiful...

He silly waited infatuatedly for several months,

And experienced hits and curses...

We heard about that Maotou is a gift to a girl presented by a boy.

When yellow flower just bloomed last year, that couple lived in the village. They with Maotou often were seen sketching outdoor.

For some reasons no one knew, one day, the girl returned city along...

Then?

It is lucky the kind people adopted him for a home finally...

Ah, we just focus on chatting! Please enjoy your dinner.

Thank you, Aunt!

Loofah and egg soup, Ticky rice and meat balls, Sliced meat with cane shoots, Salt meat with bamboo shoots... Aunt's meal is very delicious!

But, why only share me a bit?

Next morning

It is a rule for thousand years by villagers that washing vegetable by right and doing cloth by left.

Moring, Aunts and Grandmothers constantly went to the pool by Woods for washing. I wnet forward to say hello them, but they all distracted...

I run circle in Woods, but don't meet a dog! Those fat birds wander in swagger, who are not afraid of me. It is very strange!

What?
Lamb?
Little dog?

Let us buy some vegetable to try a cook?

OK, let's go after my sketching!

It was a little drugstore where the villagers for shopping, which have fresh vegetable each day.

The Aunt selling vegetable was surprised, as she said it was the first to see the travelers there... But I have the more important finding!

Bark, Bark

Are you clear for the situation? Do you bark?

You run quickly!

Bark, Bark

Bark, Bark

OK, that little bad dog had gone. If you had not provoke, could we be pursued for blocks?

Hum!

Lovely, green pepper!

OK, at once.

Quickly, meat, meat!

After lunch, I found a strange toy on the matting of second floor, so hurried up to take it to LiLi. As a result, she unexpectedly confiscated it!

Ah... It is very sleepy. After awaking, I might go to dispute her...

I seem having a dream that DiDi patting my big head say: "Little idiot, wherever going later, with you, OK?"

In two days

Hi, little guy! Why I could meet you in holiday too?

This should I ask you, do you? Old guy!

Aunt Sesame Oil
Mother Rice

Dare you upstairs?

Little coward, do you have courage to down!

Bark, Bark. Bark

Wan Wan robs my food!

Help you to eat!

Don't have a drink? Why make cake in evening?

Cheese cake...

After toasting, to be in refrigerator for a night so that be delicious!

Oh, forgot to bring maize starch!

I go to kitchen for look, maybe be available!

Replace? Whether affect taste?

All starch, it should be Ok.

At most, cheese pancake!

Only sweet potato starch to thicken...

OK, let's have a drink!

Cheers!

In last day in the old house, I knew that it was not really our house for little lost! But as long as with LiLi and DiDi together, home is wherever ...
